

Rockwell Parts

Rockwell Parts - AxleTech International is a premier dealer in the globe of specialty vehicle drive-train systems and components along with off highway vehicles. The company prides itself on being its customers' chosen supplier. AxleTech strives to meet and exceed their customers' expectations for quality, service, technology and delivery. They believe in working in an atmosphere that encourages the highest integrity with empowered teamwork, together with a unrelenting pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They put great importance on being an environmentally conscious company and offering a safe environment for their employees to work in. Moreover, they have applied a lot of programs in the organization so as to help convey these values within their business policy. AxleTech happily shares this policy and welcomes interested parties to provide them with whichever questions or comments, since they are happy to promote and share this policy with a greater understanding of their efforts. They are extremely dedicated to improving and preserving the surroundings. AxleTech has an EHS program which not just protects the environment but which also actively protects their neighbors and workers too.

AxleTech specializes in the manufacture and designing of planetary axles meant for both military and commercial applications, which may consist of anything from construction equipment to airport ground support. They take great pride in being a ground-breaking drive-train solutions provider too. AxleTech specially designs axles to meet particular application demands. They have more than 1000 different axle specs in their current offering. With over 100+ years of knowledge and history, AxleTech proudly supplies the most complete solution for whichever of your axle needs. The business is well known in numerous commercial and military applications. They offer complete axle assemblies utilized for aftermarket replacement requirements, together with servicing axle needs for OE production. Their high mobility ISAS have further details that could be seen in the "ISAS" product selection.
